Doortec

Hydrofugo MDF is a cost effective and highly versatile timber made up of mixed hard and soft woods, combined with wax and resins, to create hard-wearing but lightweight panels.

The perfect choice for kitchen doors, ours are made from 22mm MDF moisture resistant MDF, which is an ideal material for moisture rich environments. As all our doors are manufactured in-house, we can offer made-to-measure solutions resulting in a totally bespoke kitchen door.

Being so versatile, it is also suitable for a wide range of other internal furniture including wardrobes, cladding, cabinets, shelving, bookcases, etc. the list is endless.

Please note; these doors are un-sanded.

Urban Standard

MFC (Melamine Faced Chipboard) Doors

MFC is constructed from a decorative printed paper covering a chipboard core and is popularly used to make kitchen furniture and other wooden products. The flat door style is very on trend and can add a sleek design to your kitchen.

Made from the same materials as your kitchen carcass, in the same décor if you wish, ABS edging tape, of the same décor, is applied to the edges of the cut door for a co-ordinated finish. As well as being scratch and water-resistant, MFC is also very easy to clean, making it a hygienic choice for your kitchen.

Available in an array of designs and finishes, including matt and gloss, the only restriction is your imagination!

Premium Urban Plus

MFC (Melamine Faced Chipboard) Doors – PREMIUM RANGE.

The doors in this range are constructed in exactly the same fashion as our Urban standard, although the MFC used is from our premium range.

Made from the same materials as your kitchen carcass, in the same décor if you wish, ABS edging tape, of the same décor, is applied to the edges of the cut door for a co-ordinated finish. With the Urban Premium it is possible to 'mix and match' where the doors are of a different quality than your carcasses. As well as being scratch and water-resistant, MFC is also very easy to clean, making it a hygienic choice for your kitchen.

Available in an array of designs and finishes, including matt and gloss, the only restriction is your imagination!

Premium Urban Collection 22mm

MFC (Melamine Faced Chipboard) Doors – 22mm.

As with the Urban Premium doors, our doors in this range are constructed in exactly the same fashion as our Urban standard but with a quality 22mm thickness rather than the standard 18mm.

Made from the same materials as your kitchen carcass, in the same décor if you wish, ABS edging tape, of the same décor, is applied to the edges of the cut door for a co-ordinated finish. Even though the door is 22mm thick, you would still use the standard 18mm for your carcasses.

As well as being scratch and water-resistant, MFC is also very easy to clean, making it a hygienic choice for your kitchen.

Available in an array of designs and finishes, including matt and gloss, the only restriction is your imagination!

Crystal

A product with high gloss surface which stands out for its very high quality and its almost perfect reflection.

Created using the highest quality MDF core, the fabrication method during the production process allows the use of lacquers of great hardness resulting in superior durability in demanding environments; from kitchens, bedrooms and bathrooms to walls and furniture.

The ultra-high, almost perfect, brightness of Crystal and how it provides that modern feeling and sense of more space and light is what really makes it stand out against its competitors.

■ Handles

Kitchen cupboard handles play an essential part in the overall look and feel of your kitchen.

They can really add that sleek finishing touch to a new kitchen or even help refresh old kitchens in need of a makeover. Cupboard handles are used each and every day so it's important to choose a handle that not only looks good, but also feels good.

Our range of handles for kitchen cupboards offers an extensive choice of design, shape, size and finish.

We're confident you'll find a kitchen handle that suits you.

Sliding Wardrobes

We can provide custom fitted wardrobes, sliding doors and storage furniture for living spaces such as bedrooms, living room, and home offices.

Sliding wardrobe systems can be used to create custom fitted wardrobes, sliding doors and storage furniture for living spaces such as bedrooms, living rooms and home offices, as well as more commercial environments. Our system is designed for use with various finishings, e.g. 4-6mm thick glass, 6-18mm furniture boards such as MFC & MDF and other light-weight boards, all embedded within durable alu frames.

Meeting the highest safety and quality requirements, all furniture hardware and accessories are manufactured in our production plant resulting in systems distinguished by their reliability, durability, functionality and precision.

The individual components needed to make up your own sliding furniture systems are available and, as a manufacturer, the long life and trouble-free use of our products are guaranteed. With the ability to use a universal rail and non-threshold solution, the assembly of our sliding furniture system is extremely simple and incredibly fast.

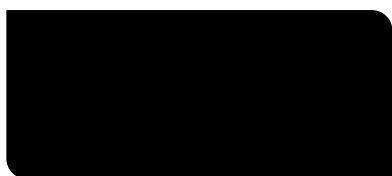

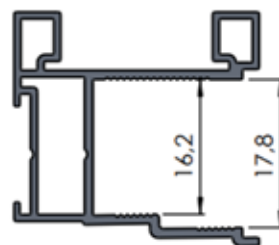

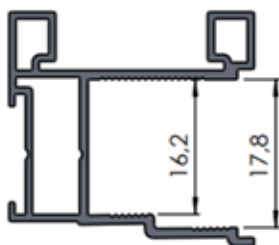

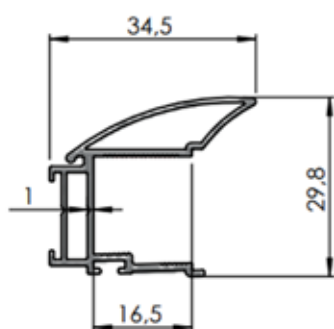

Turn the page, to find out more about each of our systems
